Q1. Write your own procedure

- Why would you want to write your own procedure?

- What is another name for procedure?

Q2. How do you create a procedure?

- Click on octagon at top
  - Select character whose procedure it is for
  - Bunny hop
  - Select “Add bunny procedure”

Q3. Creating and Using procedures

- Where do you put the code for a procedure?

- How do you use new procedure? Where is it?
Q4. Suppose you want to edit a procedure

- If the tab is not there, how do you get it back up so you can edit it?

Q5. Object Directions

- What direction are the arrows?
  - White
  - Blue
  - Red
  - Green

STOP HERE

Object Movements

- Objects turn, roll and move different directions
- Parts can also turn and roll
- Parts not intended to be moved
- Helps if you understand the orientation of objects
What about parts?
