CompSci 6
Introduction to Computer Science

October 13, 2011

Prof. Rodger

Announcements

- Read for next time Chap. 9, Section1 only (through p. 184)
- Reading Quiz on Blackboard
  - Due before class next time
- Assignment 4 out
- Test back today – you should work through and understand all problems you missed
- Classwork today – test misconceptions
- Finish file problem from last time

Assignment 4

- Two problems to solve – 2 Python modules
- Create a third Python module
  - Identify common functions and put in the third module – maximize this!
  - Example function – reading from a file
  - Use import to read this module into the two programs
