Assignment 9: Poem for Compsci 101
Name: Irina Cristali
NetID: ic50

An Ode to Compsci 101

The code is working right
It shows a green light
In this beautiful color, I always delight.
It gives me joy and hope,
That one day I will be
The applied mathematician I aspire to be,
Who knows how to relate
Theory and applications,
And can deftly use coding
To model real-life situations.

Dear Compsci 101,
You gave me struggle,
But also lots of fun.
You taught me to debug,
To test, to implement.
These very useful skills
My background will complement.
