

Written by Laura **Crazy**
and adapted from Gnarls Barkley's Crazy
December 2017

I remember when – I remember, I remember when I lost my mind
There was something so challenging about that APT
I felt my emotions out of control with so much *TypeErrors*
And whenever I would try to test it
I would get that the time limit was exceeded
But that wasn't because I didn't know enough
I just knew too much for Python

[Chorus]
Does that Pancakes.py make me crazy?
Does that Thesaurus.py make me crazy?
Does that ChocolateBar.py make me crazy?
Possibly

I feel like Python is laughing at my face
Even though it is just a ruthless programming language
Come on now, who does Python
Who does Python, who does Python, who does Python think you are?
Ha, ha, ha – bless your soul!
Does Python really think it's in control?

[Chorus]
Well, I think Python crazy
I think the APTs are crazy
I think the Assignments are crazy
Just like me

My heroes are the undergraduate and graduate TAs
And all I remember is thinkin' I wanna be like them
Before I first came to college
Before I first came to college, CompSci 101 looked like fun
And it's no coincidence I've taken such course
And I feel like I can now die in peace when I'm done with the finals

[Chorus]
But maybe Python crazy
Maybe the APTs are crazy
Maybe the Assignments are crazy
Probably
