

Green (Ba da bing) by APT 65
Parody by Austin
Original Song: "Blue (Da Ba Dee)" by Eiffel 65

[Intro]

Yo, listen up, here's the problem
About a duke guy that lives in a code world
And all day and all night and everything he sees is just red
Like him, re-write and retry
Red his page with the errors down below and a new error
And everything is red for him
And hisself and every time he tries
'Cause he ain't got nobody to help (to help)

[Hook]

It's red – not again not again, not again not again,
Now I'll try again, and again and again,
And again and again
Oh lord no please no-o no-ot again.
It's red – not again not again, not again not again,
Now he will try again, and again and again,
And again and again
Oh lord no please no-o no-ot again.

[Verse 1]

I have a red box with a null error
Red is the color of all that I fear
Wrong says the sheets and all the T-A's too
I have a problem and I feel so blue
Red are the labels that have not been found
Red like my null set, I almost had cried
Red are the line I write and what I think
Red is all the fear that lives inside me

[Hook]

It's red – not again not again, not again not again,
Now I'll try again, and again and again ,
And again and again
Oh lord no please no-o no-ot again.
It's red – not again not again, not again not again,
Now I will try again, and again and again,
And again and again
Oh lord no please no-o no-ot again.

[Verse 2]

I have a breakthrough with a new for loop
Green goes the color as I say a prayer
Green go the sheets and all the errors too
I had to append and I had no clue
How? ask the people here that walk around
Green like my ordered set, I won't be denied
Green are the lines I write without any kinks
Green is the only thing that it could ever be

[Hook]

It's Green – ba da bing ba da boom, ba da bing ba da boom,
Ba da bing ba da boom, ba da bing ba da boom,
Ba da bing ba da boom, ba da bing ba da boom,
Finally got it right,
It's Green – ba da bing ba da boom, ba da bing ba da boom,
Ba da bing ba da boom, ba da bing ba da boom,
Ba da bing ba da boom, ba da bing ba da boom,
Finally got it right,
