His palms are sweaty, half asleep, arms are heavy
He's trying to finish the code for recommending
He's nervous, but on the surface he looks calm and ready to submit,
But it's not accepting the code he wrote down,
It just says "that's not allowed"
He keeps clicking run, but the code won't compile
He's choking how, everybody's joking now
The clock's run out, time's up, over, blaow!

Snap back to reality. Oh, there goes gravity
Oh, there goes Rabbit, he choked
He's so mad, but he won't give up that easy, no
He won't have it, he knows his program's really dope
He just needs to decode
Where's the error he wrote
He programs, and he knows
When he goes back to his dorm, that's when it's
Back to grind again, yo
He's filled with passion
He better go talk to Ms. Roger and hope that she'll pass him

You better lose yourself in comp sci, the moment
You own it, you better never let it go (go)
You only get one shot, do not miss your chance to code
This opportunity comes once in a lifetime (yo)
