

# CompSci 101

## Introduction to Computer Science

`www.cs.duke.edu/courses/fall17/compsci101`

Aug 29, 2017

Prof. Rodger

# CompSci 101

## Data into Information and Knowledge

Computer Science

# Prerequisites for Compsci 101

# Who has taken CompSci 101?

compsci 101 fall 2017

# Announcements

- See assigned reading on course web page
  - Reading Quiz 1 (RQ1) online on Sakai (out today)
  - due by 1:25pm Thurs, Aug 31.
- Labs start this week! Aug 30-31! (Wed/Thur)
- Assignment 1 out today! Due Sept 5!
- Try out course software - VM
  - Try to run it before going to lab
  - If you get frustrated, get help or wait til go to lab!
- Today: Introduce Computer Science

# About Prof. Rodger

How do you keep  
your sanity?

“Don’t just  
play on  
your phone,  
program it.”

— President Barack Obama

“Computer science belongs in every public school, right next to biology, chemistry, or algebra.”

— Ashton Kutcher

**“I always did something I was a little not ready to do. I think that’s how you grow.”**

**— Marissa Mayer, CEO, Yahoo!**

**“In fifteen years  
we’ll be teaching  
programming just  
like reading and  
writing...and  
wondering why we  
didn’t do it sooner.”**

**— Mark Zuckerberg**

“From phones to cars to medicine, technology touches every part of our lives. If you can create technology, you can change the world.”

— Susan Wojcicki, CEO, YouTube

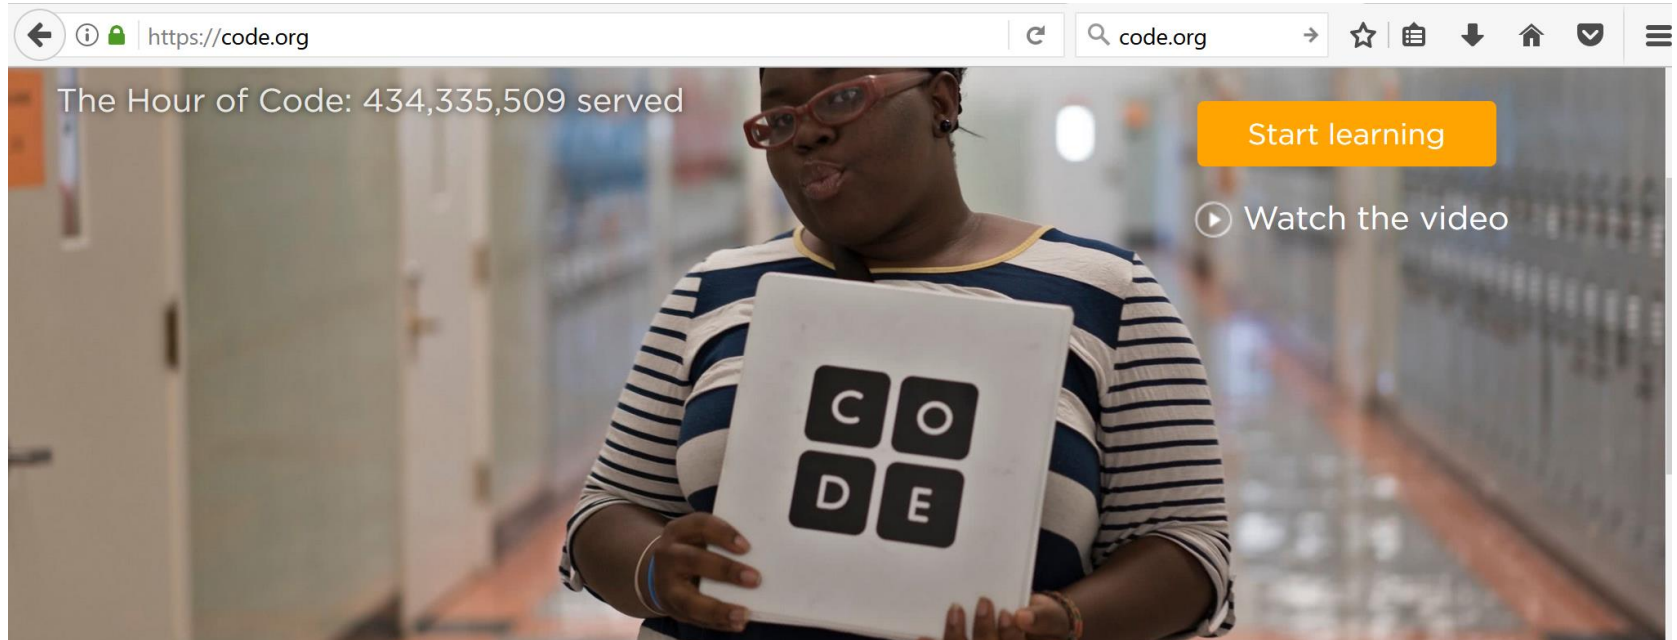

“When you think about the future... I think it’s very important to be able to learn the language of coding and programming.”

— Chris Bosh

## WE'RE MAKING A DIFFERENCE

20%

of US students have  
accounts on Code.org

9M

of our students are  
female

600K

teachers use Code.org

10%

of the world's students  
have tried the Hour of  
Code

20

states changed policy  
to support computer  
science

# John Hanke, 'Pokemon Go'

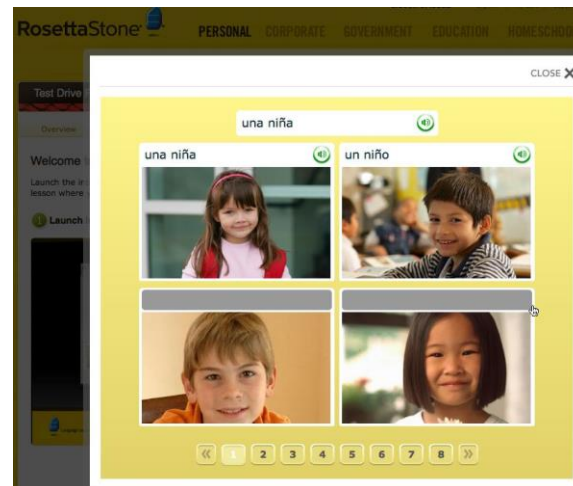

# Questions about Computer Science

What is it that distinguishes it from the separate subjects with which it is related?

What *is the linking thread* which gathers these disparate branches into a single discipline? My answer to these questions is simple --- *it is the art of programming a computer*. It is the art of designing efficient and elegant methods of getting a computer to solve problems, theoretical or practical, small or large, simple or complex.

# How will you learn to 'speak'?

- <http://www.rosettastone.com/personal/demo>
- <http://duolingo.com>

# How will you learn to program?

- You learn more than programming
- Coding, Algorithms
  - UX/UI: User Experience, User Interface
  - Data Analytics, Software Engineering
- A course, a way of thinking, a set of skills and practice that can lead to more or ...

# What language will we learn?

- <http://www.python.org/>
- Python is a *multi-paradigm* language
  - Procedural
  - Functional
  - Object-Oriented
- Simple, libraries, widely used
- Guido van Rossum is BDFL

# Why is it called Python?

+

-

**C**  
9.8 m/sec<sup>2</sup>

# Who are you?

- Let's look at survey to see who is taking Compsci 101 in Spring 2017
  - Do you recognize yourself?
  - Is there a stereotypical Compsci 101 student?
  - Is there a stereotypical computer scientist?
- Everyone can succeed! Ideally you won't have lots of experience programming

# Course Overview:

## Is this the right one?

- Work by yourself and collaboratively on solving problems that programming
  - Analyze the problems, think about solving them
  - Create, Collaborate, Persist, Problem-Solve
- Why should you come to class?
  - Learn things, participate in a community
  - Provide help, get help, wonder, dance, think
- Why is this course so great?
  - Because you're in it

# What's in Compsci 101?

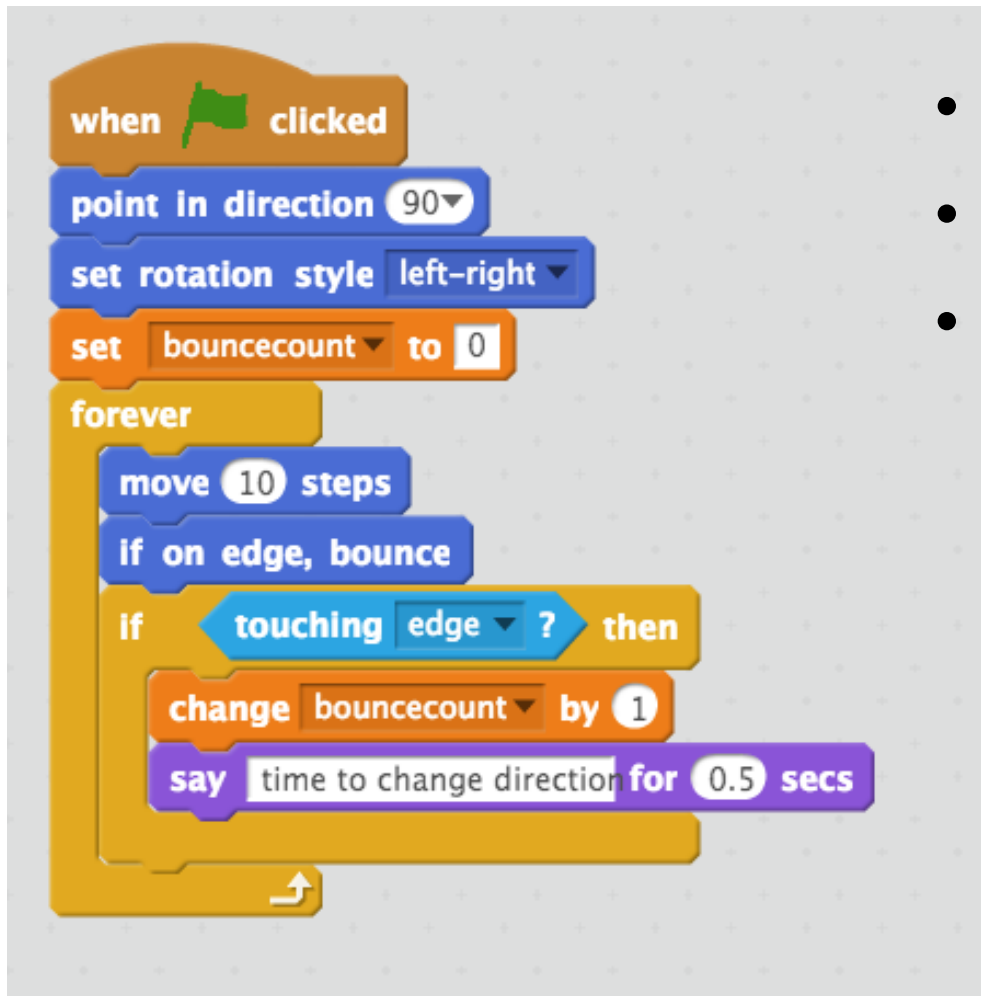

- Learning about computing, computer science, and programming
  - Vocabulary of Python and programming
  - *Power of automation, repetition, scale*
  - Understanding and changing the world
- Programming using Python
  - Tools: Eclipse, EPD, Libraries, ...
  - Using mathematical and scientific techniques
  - *Art and science* of programming

# Course overview, logistics

[www.cs.duke.edu/courses/fall17/compsci101](http://www.cs.duke.edu/courses/fall17/compsci101)

- Programming assignments: APTs and Assignments
  - Acknowledge assistance, to learn to program ...
  - Be aware of late policy
- Exams: midterms and final: paper-based, different
  - All old midterms available
- Class work/attendance
  - Examples today, benefits hopefully clear

- "Hello World"
- Scratch Program
- Colors
  - Duke blue: motion
  - Mustard: control
  - Light blue: sensing
  - Orange: data
  - Purple: looks

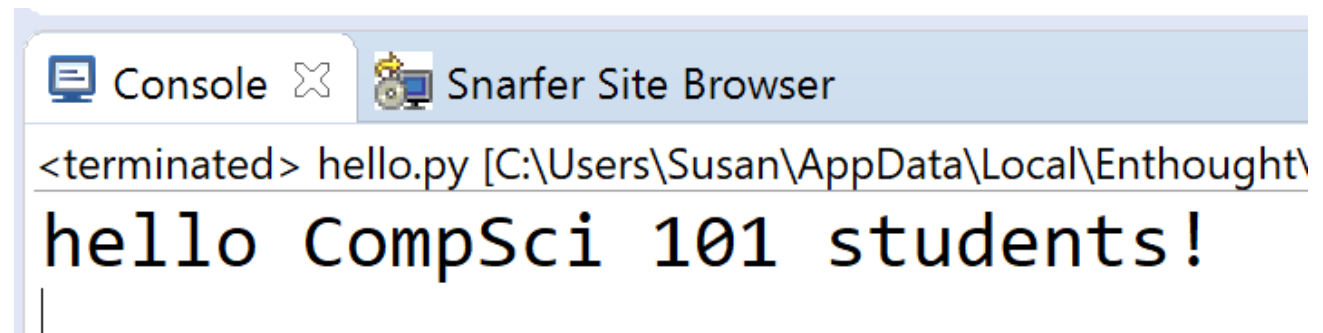

# Analyze this Scratch Program?

<http://bit.ly/101f17-0829-3>

# Python code

## hello.py

```
1 '''  
2 Created on Aug 28, 2017  
3  
4 @author: Susan  
5 '''  
6 print "hello CompSci 101 students!"
```

# Python data reading code

```
f = open("kjev10.txt")
st = f.read()
total = len(st)
zc = st.count('z')
print "total # chars = ", total
print "number of z's", zc
for ch in 'aeiou':
    print ch, st.count(ch)
```

# Duke Connection: Fred Brooks

## '53

- What Would FB Say?

"The most important single decision I ever made was to change the IBM 360 series from a 6-bit byte to an 8-bit byte, thereby enabling the use of lowercase letters. That change propagated everywhere."

# Why is programming fun?

Fred Brooks

- First is the sheer joy of making things
- Second is the pleasure of making things that are useful
- Third is the fascination of fashioning complex puzzle-like objects of interlocking moving parts
- Fourth is the joy of always learning
- Finally, there is the delight of working in such a tractable medium. The programmer, like the poet, works only slightly removed from pure thought-stuff.
