- Exam 2 is Nov 10
- Watch videos and online quiz for Thursday

WOTO-1 Two level game

<http://bit.ly/94f20-1027-1>

Q1) Given an array of pandas, how do I create an array of objectMarkers that match the pandas in the same order

Q2) Given pandas moved, what type of loop do you use to get them all back to their objectMarkers?

Q3) Given pandas moved, explain in words how to get them all back to their objectMarkers?

Q4: If we want to play a two level game, what might be the best game flow?
