

Kyrsten Pringle

Professor Susan Rodger/Nicki Washington

Computer Science 101 Spring 2021

Assignment 7: Create

April 22, 2021

Haikus

Computer Science:
APTs are such a breeze,
Every time all greens,

Hangman Assignment,
Turtles and Transform are calm,
I have so much fun.

But then I struggle.
Clever Hangman defeats me,
I stay up all night.

Recommender next,
I am scared to fail again,
Except I triumph.

With new confidence,
I finish all assignments,
CompSci is complete.

I will miss getting
All greens and feeling so proud.
Farwell to CompSci.
