

## **A Series of Haikus**

### ***APTs***

Riddled with errors  
Edge cases are my downfall.  
Finally, all green!

### ***Writing Code***

While, for, if, else  
These are the keys to success  
Value your mistakes

### ***Common Mistakes***

Don't forget colons  
At the end of def and if,  
Else: errors appear

### ***The Seven Steps***

Design on paper  
Python Tutor when you fail  
Debug all night long

### ***Recursion***

Recursion baffles,  
Elegantly breaking down;  
A call from within

### ***Python***

Flexible and swift  
With precision of a knife  
Snake or code, who knows?
