

COMP SCI 101

"Any fool can write code that a computer can understand
Good programmers write code that humans can understand."
- Martin Fowler

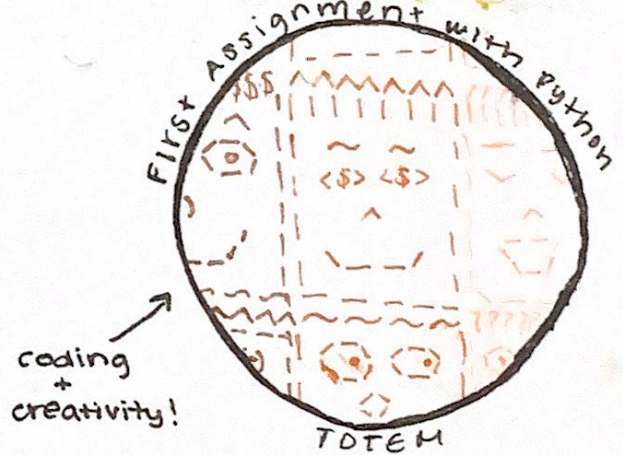

♥ Favorites

- Dictionaries
- Lambda sorting
- List Comprehension

did someone say TIPS (on year)!

- * remember variable types
- * lambda sort in reverse order of preference
- * the 7 steps!
- * while loop vs for loop
- * strings & tuples are immutable
- * use your TAs and piazza

Key words

lists, parameters, join, index, integers, sets, conditional, sort, floats, debug, dictionary, append, sput, recursion, variables, tuple, loop, functions, string, boolean

A STORY

CompSci 101 is a <adjective> class!
I loved the <noun> APT
and felt <adjective> after
completing it. I can't
wait to <verb> after I
<verb> <adverb> my
code!
