Project Expectations

CompSci 590.11

Scope

• You should do something (a little) novel
  • Apply known algorithm to new problem
  • Tweak known algorithm
  • Compare known algorithms in new way
  • More ambitious:
    • Introduce new algorithm
    • Prove new theorem

• You should write up your results in a document of 5-15 pages
• Teams of 2 encouraged, but solo is OK
Project Proposal

- Due 11/2, but the sooner the better
- Indicate what you plan to do
- Explain why it is novel
- Should be <1 page

When is it due?

- For RP to have enough time to grade, please submit by the start of exam period (12/8)

- If you have a particularly nasty exam period, send me the details and I can extend this on a case by case basis
