CompSci 94
Write your own Procedures, object movement
September 8, 2022

Prof. Susan Rodger

Q1. Write your own procedure

- Why would you want to write your own procedure?

- What is another name for procedure?
Q2. How do you create a procedure?

Q3. Creating and Using procedures

- Where do you put the code for a procedure?

- How do you use new procedure? Where is it?

Q4. Suppose you want to edit a procedure

- If the tab is not there, how do you get it back up so you can edit it?

# Q5. Object Directions

- What direction are the arrows?
 - White

  - Blue

  - Red

  - Green

STOP HERE

Object Movements

- Objects turn, roll and move different directions

- Parts can also turn and roll

- Parts not intended to be moved

- Helps if you understand the orientation of objects

What about parts?

Announcements

- Assignment 1 due tonight

- Assignment 2 out
  - Draw a storyboard
  - Create an Alice program
