

CompSci 94

Adventure Game

November 22, 2022

Prof. Susan Rodger

Announcements

- Final Project Deadlines
 - Part 1 due Nov 29 – partner or alone?
 - Part 2, Game Video, due Dec 5
 - Part 3, Story board, Alice Program and Explain Video, is due Dec 7 (no late day)
 - Part 4 and 5, demos and feedback is due Dec 6 and 8
- Exam 3 is November 29
 - See review slides from Nov. 17 lecture
 - See old tests

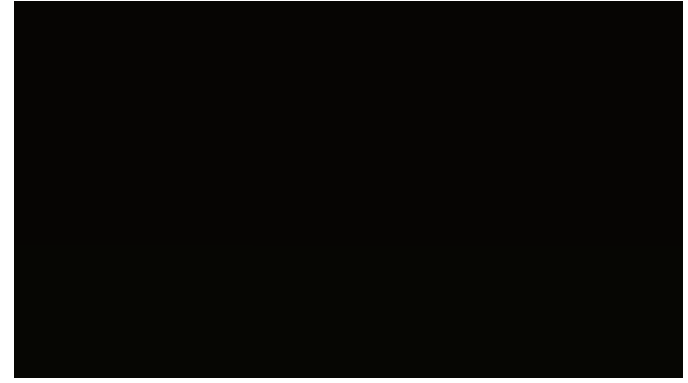

How to study for the exam

- Practice problem solving
- Redo a classwork, or a procedure or function for a classwork
- Try redoing something from a lecture
- Rewatch videos, redo online quizzes
- Understand topics – reread over lecture notes
- Look at old Alice 3 test 1's and old test 2's
- Old Alice 2 tests – think, how would I do this in Alice 3

Review 1: Given an array of pandas named **pandas**.
Double the size of every other one starting with the
second one in the array, one at a time

Review 2: How do you force events to only happen at certain times?

Q1. What object could one use to make a scene dark for a scene change?

Q2. How does one make a scene dark for a scene change?

Q3. How does one change the ground from sand to water?

Q4. How does one change scene from grass scene to island in water?
