

Lyrics:

"I learned so much in Comp Sci

Python is my friend

For loops, sets, tuples, strings, floats, ints

The fun will never end

Even when I feel so sad

When the apts are red

I persevere and always try

til it's time to go to bed

I learned so much in comp sci

python is my friend

for loops sets tuples strings floats ints

the fun will never end

assignments are sometimes very long

but the end makes it all worth

I'm so glad I took this course

The best one on this earth"
