

# CompSci 94

## Write your own Procedures, object movement

September 5, 2024

Prof. Susan Rodger

# Q1. Write your own procedure

- Why would you want to write your own procedure?
- What is another name for procedure?

Q2. How do you create a procedure?

# Q3. Creating and Using procedures

- Where do you put the code for a procedure?
- How do you use new procedure? Where is it?

# Q4. Suppose you want to edit a procedure

- If the tab is not there, how do you get it back up so you can edit it?

# Q5. Object Directions

- What direction are the arrows?

- White

- Blue

- Red

- Green

# STOP HERE

# Object Movements

- Objects turn, roll and move different directions
- Parts can also turn and roll
- Parts not intended to be moved
- Helps if you understand the orientation of objects

# What about parts?

# Announcements

- Assignment 1 due tonight
- Assignment 2 out
  - Draw a storyboard
  - Create an Alice program
  - Make a zoom video, explanations and run it
