the  
assignment  
itself

When you get 2:30 hours to finish the APT quiz and you finish in 2:29

I am speed

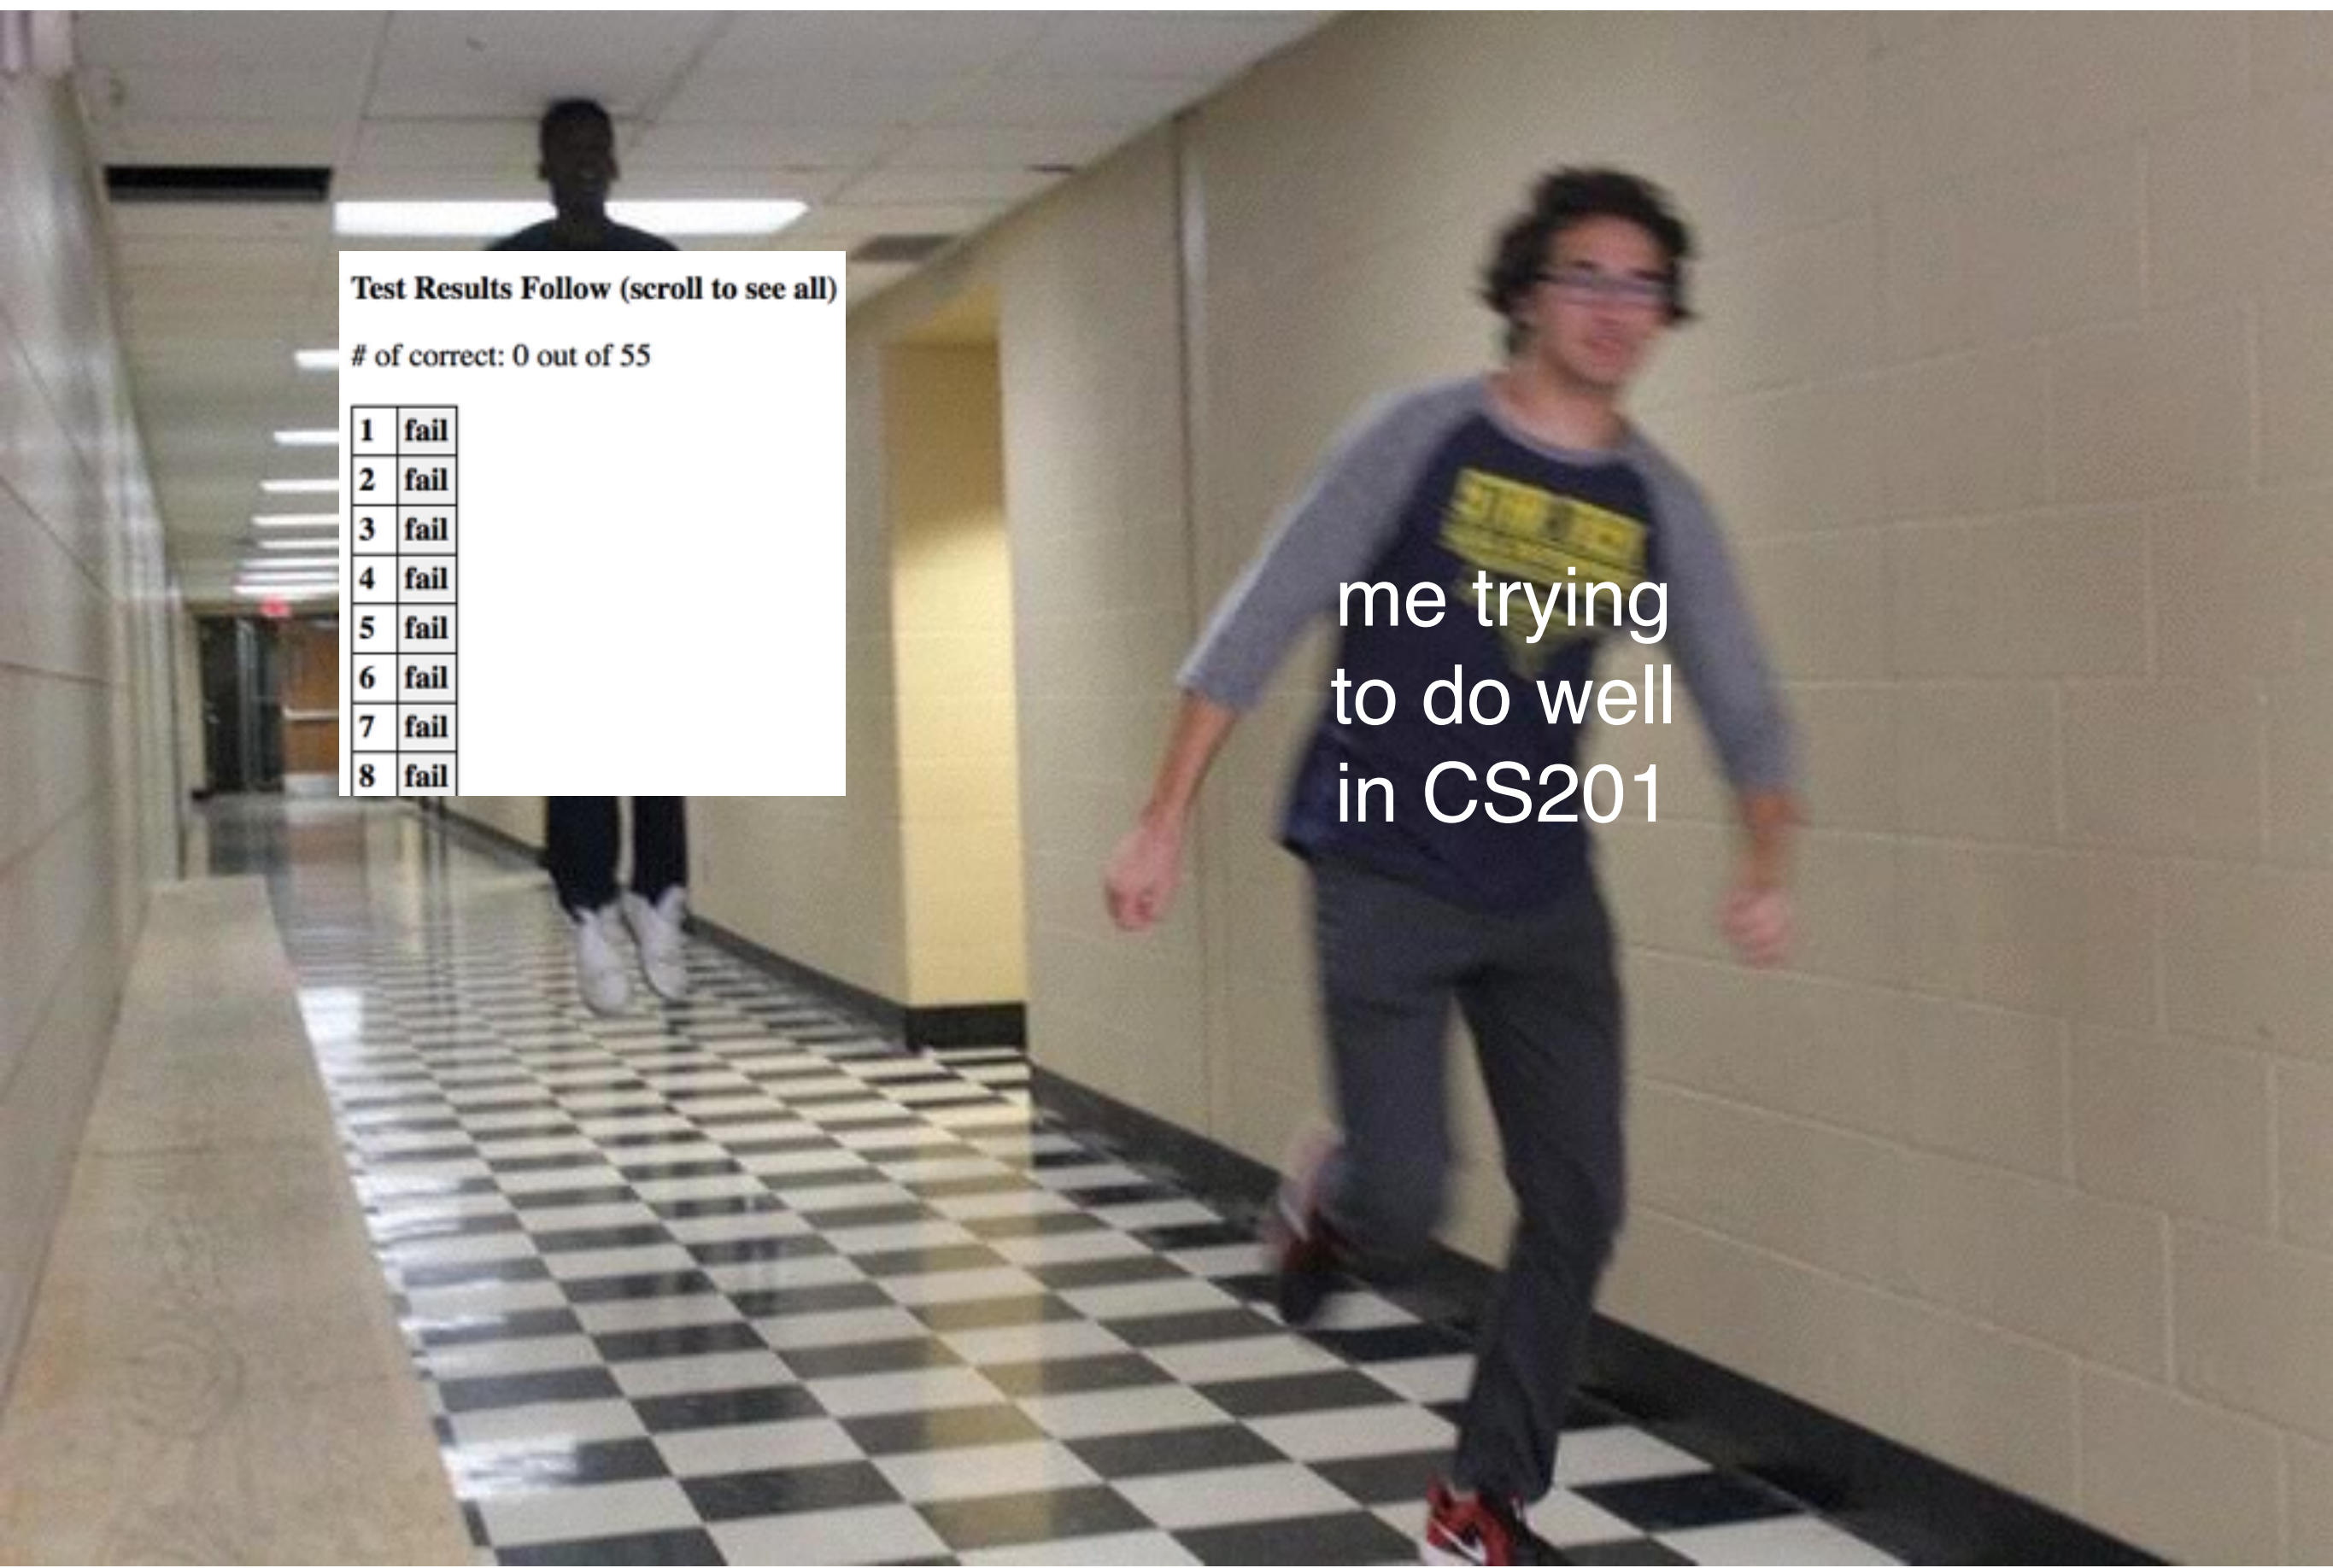

**Test Results Follow (scroll to see all)**

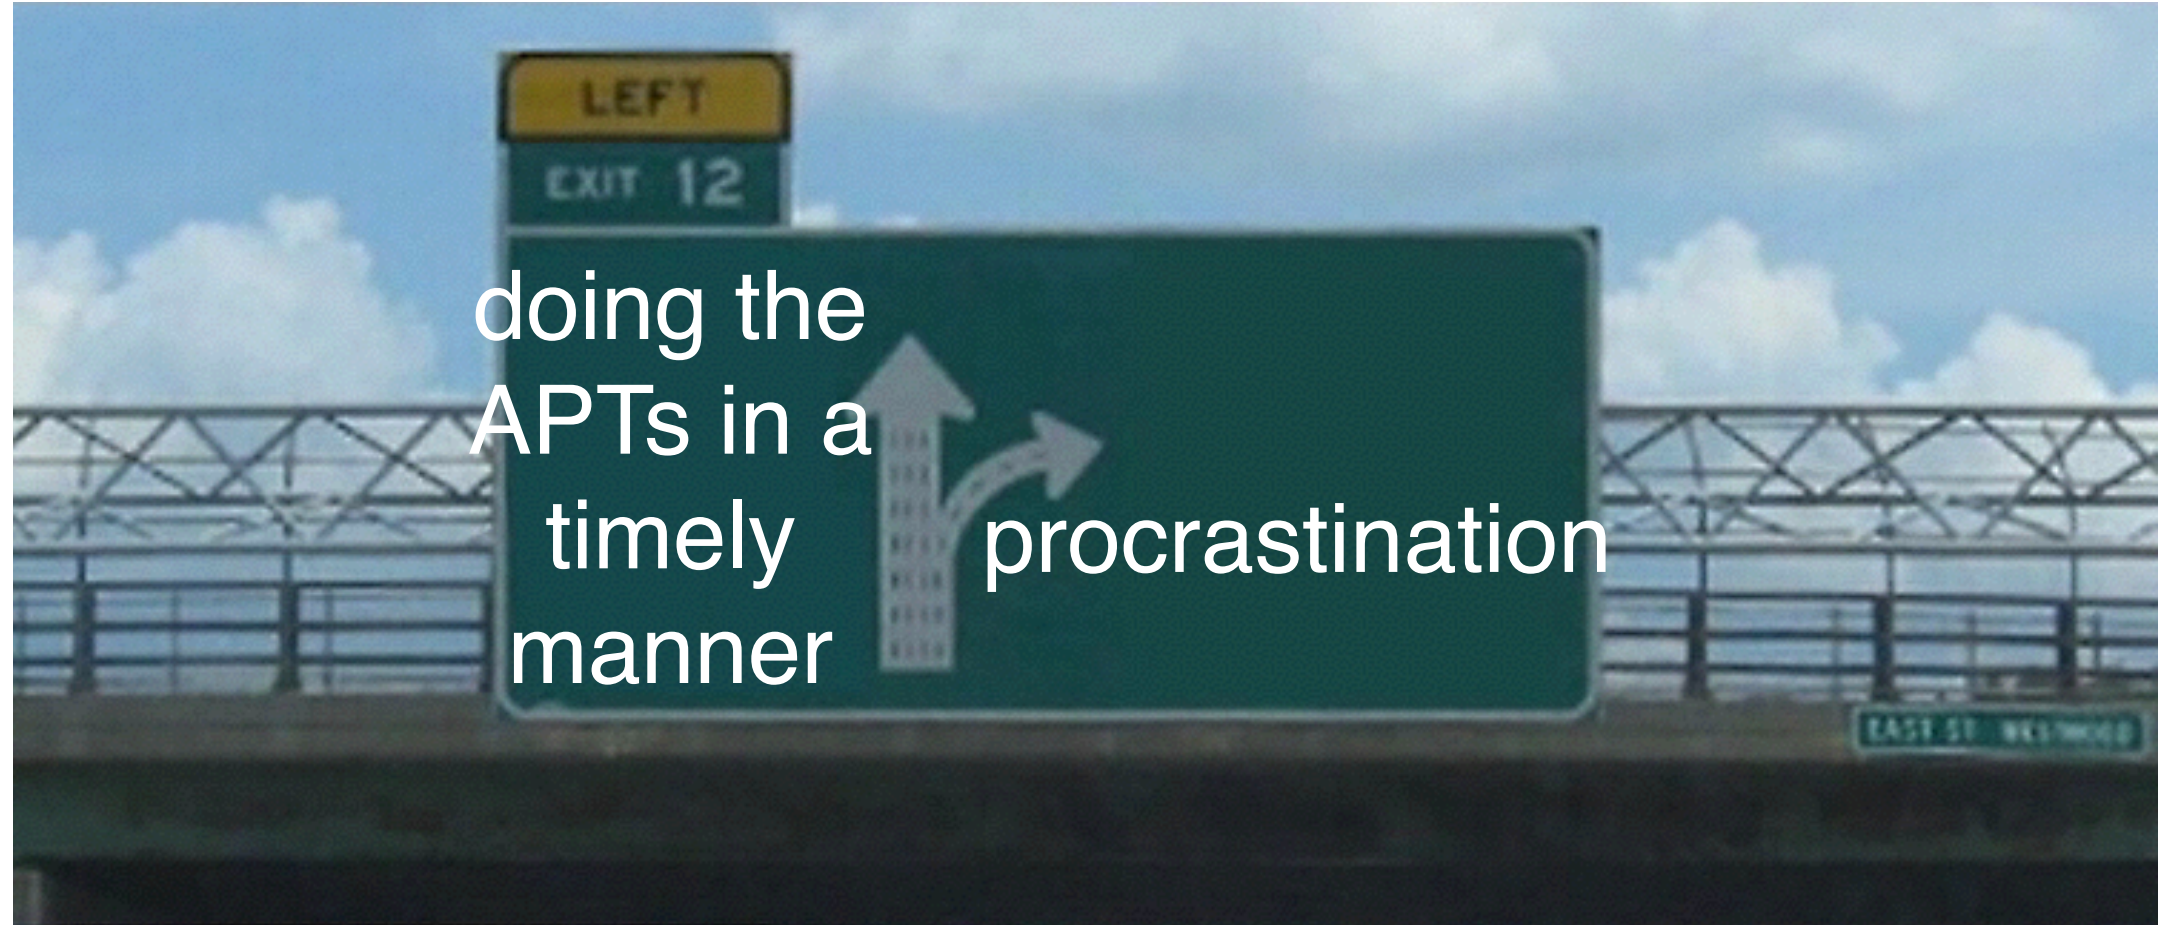

# of correct: 0 out of 55

1	fail
2	fail
3	fail
4	fail
5	fail
6	fail
7	fail
8	fail

me trying  
to do well  
in CS201

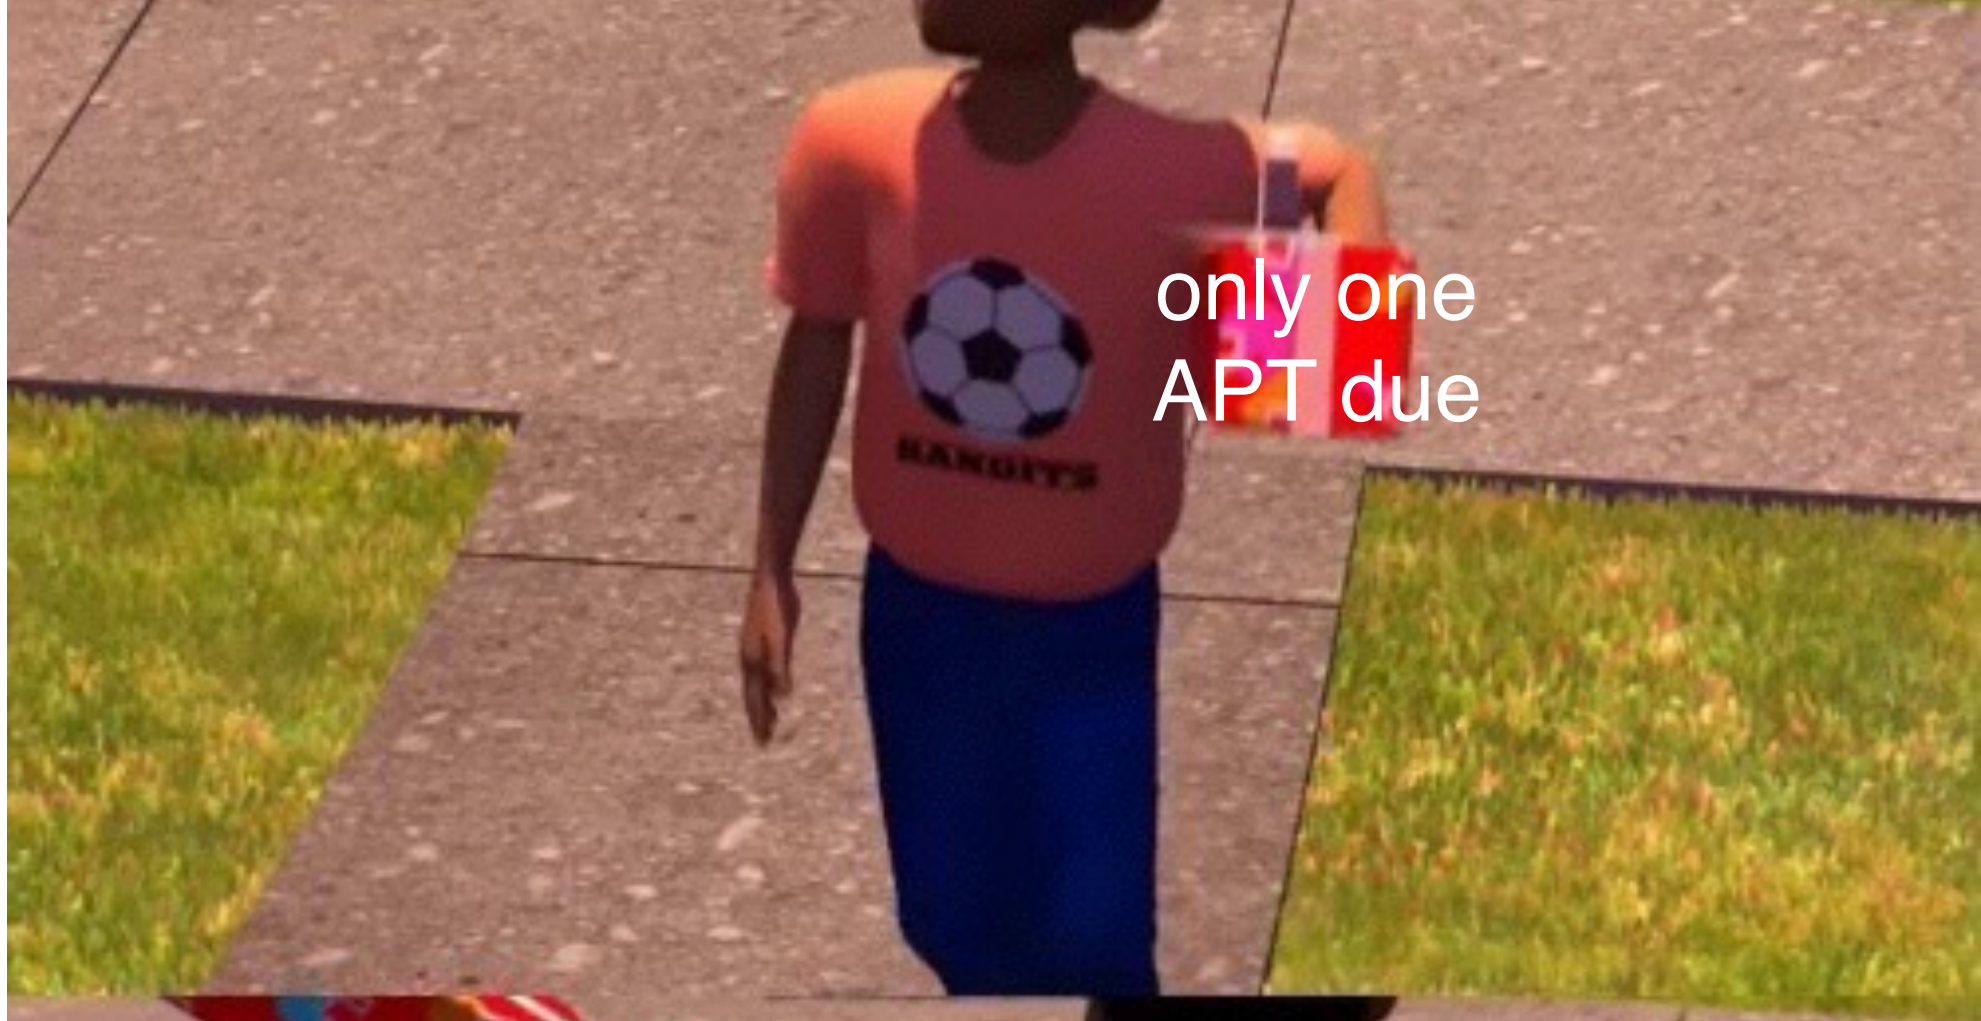

TAs near the end of office hours: I can't wait to go home and work on my own assignments  
me walking in with 17932402034 questions:

only one  
APT due

"You must do 6"

Programmers at any other sort:

Programmers at bubblesort:

$O(n^2)$

$O(n)$ ,  $O(\log n)$ ,  
 $O(n \log n)$ , etc.

infinite loop

Java

me

“Drake, where is the base case?”

me: \*runs my code\*

NullPointerException

Array  
IndexOutOfBoundsException  
Exception

OutOfMemoryError  
Exception

Allow us to introduce ourselves,

me, after checking my code for every possible error: *why doesn't it work?!*

the semicolon I mistyped as a colon:

COVID-19

Professor's plans  
for the class
