

## ALL GREEN

Wow I got all green  
a stupid syntax error  
just cost me 2 hours

## WORK

I like APTs  
but assignments no so much  
and tests even less

## OBJECTS

need to declare these  
each object has properties  
call methods on them

## LISTS

many types of these  
Use ArrayList or LinkedList?  
depends on problem

## TREES

data structure type  
a node can have two children  
should use recursion

## RECURSION

difficult at first  
very useful in tree probs  
method calls itself
