P7 Assignment

Computer Science 201 in Haikus

Hours spent debugging.
All that time because of a
Forgotten bracket

Seeing the green boxes;
A feeling of ecstasy.
Finished APT.

Defeat runs rampant:
Two points of thirty-seven.
Saved by extension.

So much time wasted
The treacherous $O(N^2)$
The loop within loop.

Taking online school
Hard to focus. Thank god for
Two-times speed lectures
