Assignment P4

*E Coli* DNA? What?!

LinkNodes save the day!

### Rhyming Poetry

Oh Assignment P4,

Unlike anything I have ever seen before,

Pages and pages of biology reading,

"Stop!" my brain is basically pleading,

Ahhhhh, the TLDR, at last,

It's almost if they'd known I'd ask,

They start by using Strings,

Those wasteful little things,

They now say StringBuilders,

And now I am bewildered,

Finally they say ListNodes,

They were able to carry the load!
