

Forloop

for j in project:

 Iterate over this list

 Return a tuple

APT

The clock is ticking

No greens are coming my way

I submit and pray

Debug

I get an error

I guess it's time to debug

I fix up the code

Green Boxes

Lots of green boxes

Flood my entire screen with "pass"

Makes me want to dance

Classwork

WOTOs and quizzes

Despite all of the hassle

Really helped me learn
