

Computer Science 101

What a journey you will take!
To learn the 7 steps to success

While you keep learning
For the excitement of an green screen
Dictionaries are no longer just books
And tuples are now a part of your dictionary

If you keep trying and debugging
There is no better feeling
Than gradescope autograder giving you a check
And knowing your code is set

Remember to indent
And add comments
As your code gets longer
This organization is crucial

WOTOS will become like second nature
Just like adding “:”
Its a weekly schedule
APTs on Thursday
Lab on Friday
Keep it straight

Thank you Professor Rodgers and Head TA Velasco
CS 101 would not be the same
Without the support, help, and enthusiasm
Of all the staff and TAs

Now we are off to CS201
With the foundation to do great!
