An eerie white screen
A shining bright glare
I squint my eyes tight
with not a single line of code in sight

I take a deep breath
Place my hands on the keys
Refocus my mind
It's time to make sure I don't get behind

We're off to a start
A heart full of faith
As the hours fly by
I let out a sigh

Python tutor the mentor
We all need to thank
Writing line upon line
As it helps me refine

Patience is key
Soon enough you will see
Practice makes perfect
And soon enough we will reach victory!
