

print(sum(HardWork))

At first I was hesitant
To take CS 101
But now, I've come to realize
The fun has just begun

Comp sci 201
Is in store for me next
I'm ready for the challenge
I'm going to give it my best

Still undecided
A major waits to be declared
But a minor in comp sci?
I feel like I'm prepared

So thank you, Dr. Rodgers
For teaching us Python
It was fun while it lasted
But now its Java I've got my eyes on
