Computer Science 101 Haikus

Python and PyCharm
a new skill to master now
No longer scary

Another set of
APTs to get all green
You bet I did it.

This week's assignment:
Make a game and play it? Sure
CleverGuessWord rocks

Practice exam 1
and 2 and 3 and 4; now
I can ace this test

List comprehensions
sort these tuples, sort these lists,
All tests passed; go green!

Failed four of twenty
Let me try this once again
All I see is green

Peer instruction time
Nobody understands this
But we are learning!

Crown me queen of the
APT, see all those scores
are hundreds today
