

# PRO TIPS

## for COMP SCI 101

Don't wait until the last day to complete your APTs.

Ask for help from people in higher comp-sci classes or TAs when stuck on a project.

Break up projects into easier-to-understand sections

Use print statements while coding to check that your program is doing what you expect at each step

Use helper functions and descriptive variable names to keep your code organized and easy to read

Review past exams to familiarize yourself with the types of questions and formats

Try personal coding projects to strengthen your understanding of in-class topics

Work with peers to help debug
