Just checked my out code no bugs
Syntax out here lookin tuff
I just wrote up me a func
Im running while loops all day
Don't do what GPT say
I be in Pycharm don't play
Don't even need to debug
Whatchu know bout python thug
Watchu know bout pullin up, w homework done
Make these teachers give a hug
All of my friends do their code
None of my friends overload
All of my friends go beast mode
All of my friends work together
We solve all the problems
We help each other w our code
None of my friends cheat, oh no
Couple friends stole my code
They aint my friends no mo
Always do the WOTO's
Class you that know that ill go
Rodger's the goat thats fo' sho'
My code is always a hit
Pycharm i go there to spit
Homework gets me into flows
Hit the button and it goes
Errors? My code never throws
I got my code in control
My work don't ever get froze
Cheaters i don't mess with those
Coding the life that i chose
When i am done laptop closed
APT make sure I put the right label
If code don't run it ain't stable
Python new hobby i take up
Assignments hard i spend all day on em
Think about code when i wakeup
Coding late nights gotta stay up
Programs they do what i say so
Calculate grades if i say so
Homework on homework on homework on homework
Programs on programs on programs
Assignments just keep getting harder
Learning how to program shot out prof Rodger

Making an app and i know they'll install
Studying hard cs101 calls
Write my code good so my loops never stall
Find a new bug we get rid of em all
Pull up gradescope see whats up
Fresher than a function call
Intro class but im big dawg
Just need one attempt thats all
Write my program block by block
 Build a code up i got sauce
Dang an error my fault
Talking bout the code that i thought
Taking these tests i do way above average
Hunnid lines deep in code brackets
Hunnid-line-deep error tragic
Hunnid codes stacked in the folder
These coders act tuff they cant approach me
I know they'll never out-code me
They get an error cant null it
Do APT's to the fullest
I run with real coders don't hang with no rookies
Im working hard so don't sush me
Study for tests i be cooking
I write my code all the way, fully
Good marks on these tests i ain't no rookie
Debugging making me moody
Alarms wake me up I snooze 'em
Tryna guess what code i'm using'
Tryna guess what work im doin'
I code with lots of quickness
They ain't wanna code with me
Now they cheating they trippin
Now they wanna code with me
Know my TA's gon miss me
My code always be witty
Resume stay gettin' bigger
They just know a coder busy
I been runnin' all them functions, yeah
